

REMARKS

In the outstanding Office Action, the sole issue left to be resolved is the rejection of Claims 10 and 13 under 35 USC 112, second paragraph, as being indefinite. In response to this rejection, Claims 10 and 13 have been put in independent form and the basis for the weight percents stated as being based on the weight of the liquid curative. Additionally, Claims 10 and 11 have been amended to state that the liquid curative has a room temperature viscosity of from 300-50,000 cps. The non-elected claims have been canceled without prejudice to the filing of a divisional application thereon. Since these amendments address all of the outstanding issues remaining in the present application, it is respectfully submitted that the present application now is in condition for allowance. If the Examiner feels that there are any outstanding matters left to be resolved, he is respectfully requested to contact the undersigned in order that they may be dealt with.

Respectfully submitted,

Terryence F. Chapman
